

Offshore Wind Evening - Stavanger

Place and time: Gaffel og Karaffel, April 20th at 18.00 - 21.00,
Serving: Tapas and drinks

Welcome to a windy evening at Gaffel og Karaffel April 20th from 18.00-21.00. The offshore wind industry in the Stavanger region will gather for professional input, mingling and inspiration. Søren Clemmensen from Port of Esbjerg will present the journey from being a fishing port to becoming an international hub for offshore wind. Siri Kalvig will talk about Stavangers renewable transition and Sonja Chirico Indrebø will talk about their ambitions with “Statoil, New Energy Solutions”. Shoreline AS which recently achieved international success with their tool for simulation of wind farm projects will be there to celebrate their new product release. PS. The evening will be windy so wear an appropriate hair cut.
